UPDATE

To the individuals we support, their families and our community partners,

To continue with our practice of providing transparent communication, I wanted to update you that two staff members working within one of our residential programs at Fly Road have tested positive for COVID-19. We are sending our best wishes to these staff members for a speedy recovery.

Since receiving notification of the positive results, we have been working diligently with Public Health to minimize the effects of this situation on others. All staff who came in close contact with the staff members have been contacted and referred to Public Health.

As always, if you have any questions please contact Bethesda in the manner you have in the past or contact questions@bethesdaservices.com and we will make sure that someone responds to you as soon as possible.

Respectfully,

Brian Davies
Chief Executive Officer
Bethesda
